NEBOSH National General Certificate

The NEBOSH National General Certificate (NG) is intended for managers, supervisors and staff from all types of organisations who need a broad understanding of health and safety issues. The NG is also suitable as a first step on a career in health and safety.

Entry Qualifications

No formal qualifications are required but candidates must have a reasonable standard of written English.

Course Structure

The syllabus comprises 11 elements:

1. Why we should manage workplace health and safety
2. How health and safety management systems work and what they look like
3. Managing risk – understanding people and processes
4. Health and safety monitoring and measuring
5. Physical and psychological health
6. Musculoskeletal health
7. Chemical and biological agents
8. General workplace issues
9. Work equipment
10. Fire
11. Electricity

Assessment

Assessment is by examination and project. Unit NG1 (Elements 1-4) is assessed by an open book exam that can be completed remotely i.e. at home rather than at an exam venue. NG2 (Elements 5-11) is a risk assessment that must be carried out in the candidates own workplace or equivalent working area, using a NEBOSH template. Both the examination and the workplace assessment are marked by NEBOSH.

The open book exam NG1 must be taken on one of set dates arranged by NEBOSH and with the risk assessment NG2 either submitted in the same week or at a later sitting.

E learning

Students are provided with a login to our e-learning website, and access to downloadable notes. The site provides lessons to work through, and coursework questions to complete and submit online for marking. Tutor support is available by email, telephone or post. A printed copy of the course notes can be provided at an additional cost.

Fees

The course fee is £350 for E-learning, and £400 if a set of printed notes is required. The assessment fees are £170 in total, £85 for the written exam and £85 for the risk assessment.
